

'Have A Go' Day CAD / Architectural Technician

Aimed at young people thinking about a career in:

Architecture

Engineering

Construction

T3 Training & Development are inviting you to attend our one-day event to experience the role of a CAD Technician, Structural Engineer, Architectural Technician or BIM (Building Information Modelling) Expert.

You will be introduced to various job roles within the Architectural, Engineering & Construction sector and have the chance to apply for the apprenticeship vacancies we have on offer.

You will see how buildings are designed and have a go on the software's used in the industries - AutoCAD (Computer Aided Design), Revit & Tekla - 3D Modelling.

You can also undertake a short mock interview to help you further when applying for job roles in the industry and ask any questions you may have to find out if this is the right career for you.

To apply for a place on this one-day experience please contact:
training@t3-uk.com or 01226 610201. Places are limited so register your interest today

Location: Barnsley

Attendance: 10am prompt start while 3pm

Date: Thursday 30th May 2019
